Regional Director**

**Problems**

**Income  
inequality**

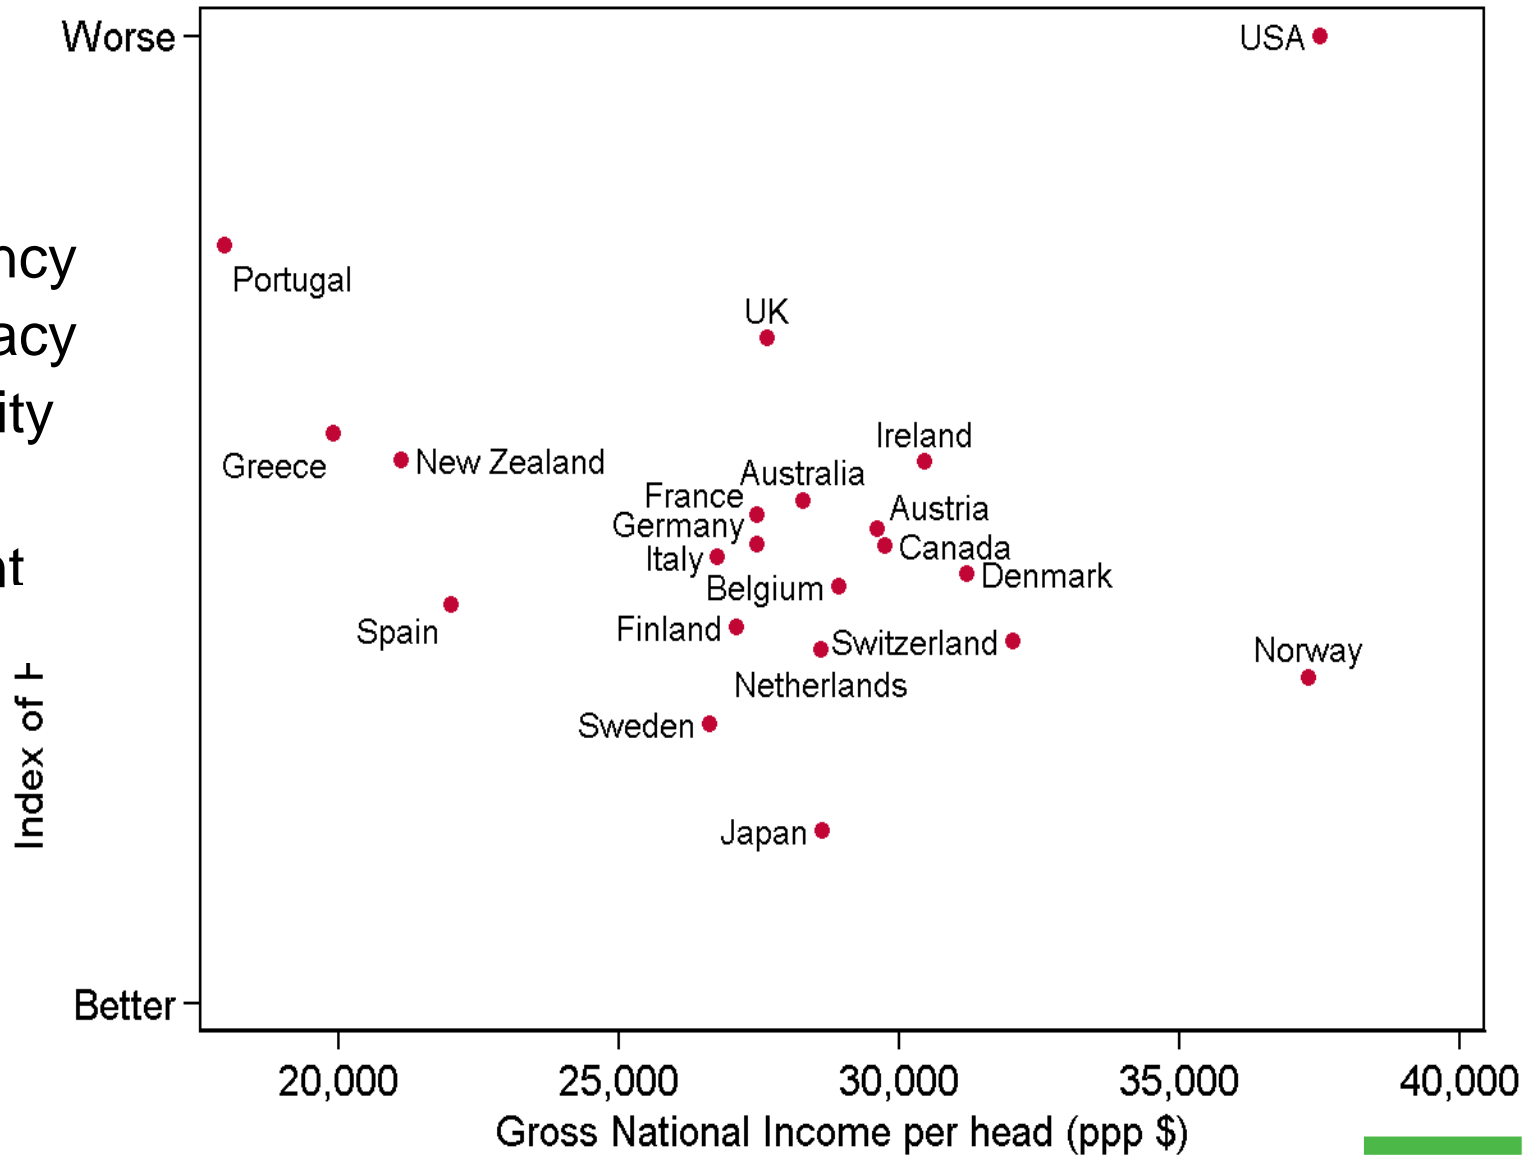

# Health and social problems are worse in more unequal countries

- Life expectancy
- Math & Literacy
- Infant mortality
- Homicides
- Imprisonment

# This is not just a question of National Income per capita

- Index of:
- Life expectancy
  - Math & Literacy
  - Infant mortality
  - Homicides
  - Imprisonment

# Social mobility is lower in more unequal countries

# More equal countries recycle more waste

# The economic argument

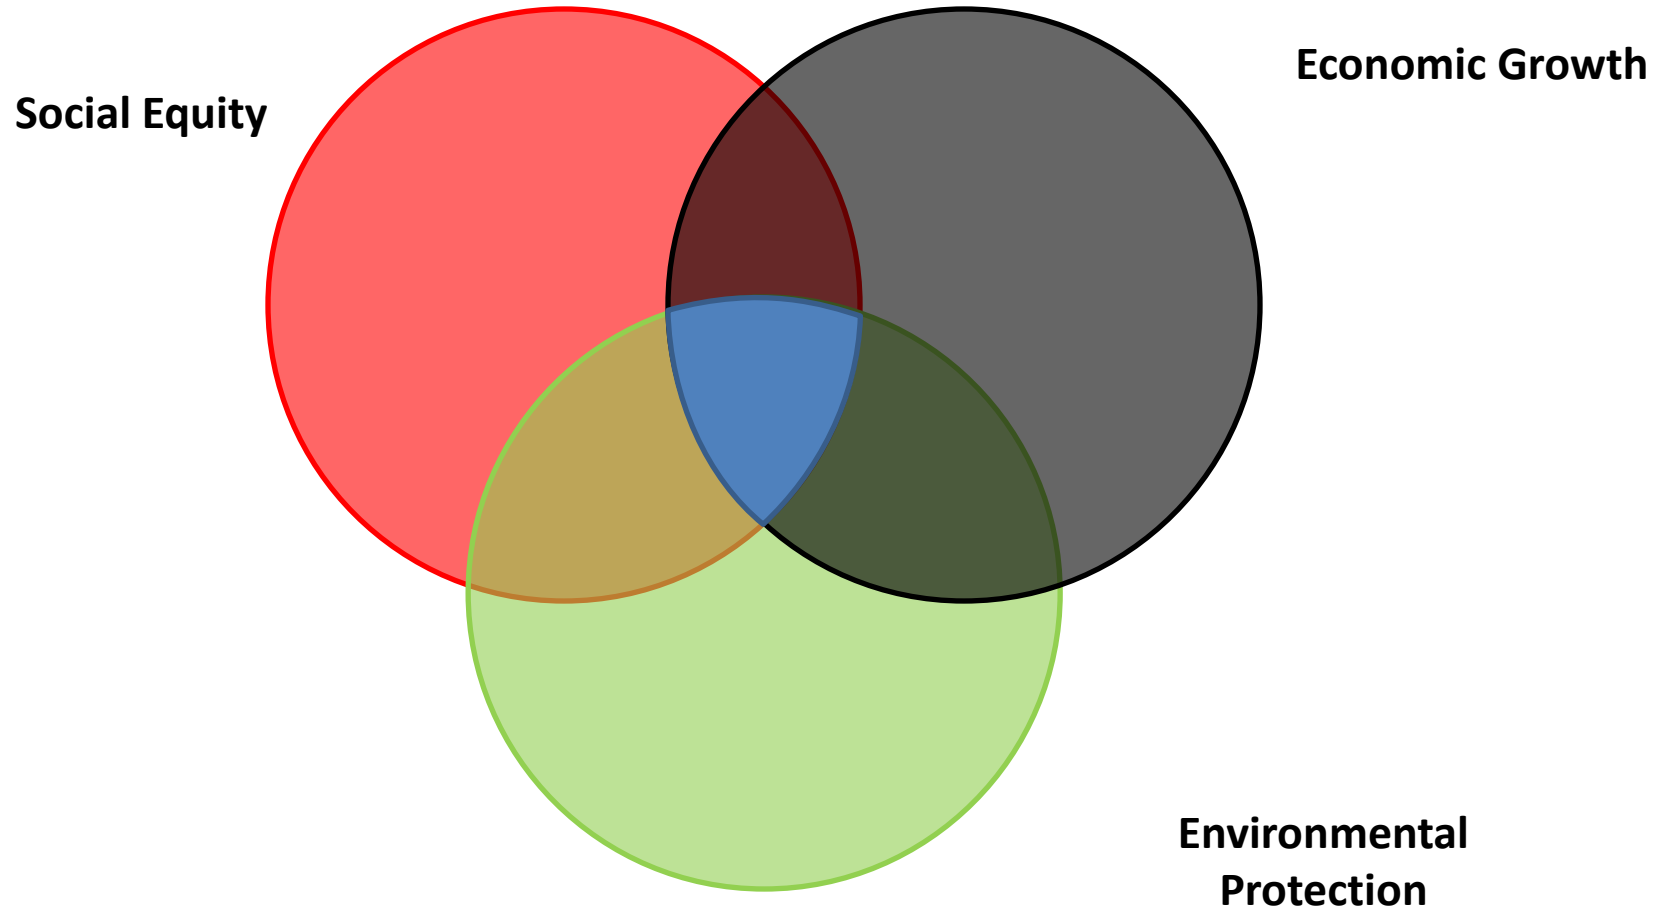

## **Growth needs Green:**

- China has set emissions targets in 7 provinces.
- Germany has a 45% renewables target by 2030.
- South Korea's growth model is based on Green growth

## **Future growth needs a more equal society**

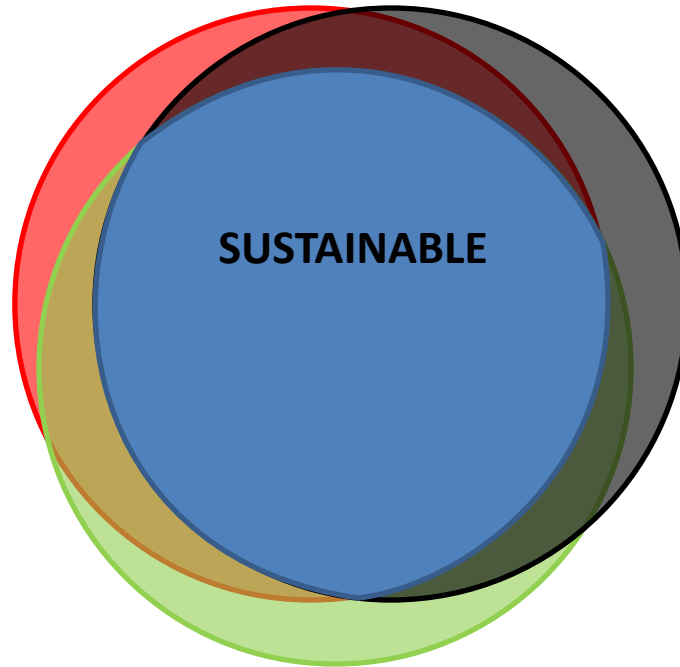

- More equal societies have better education systems and are more competitive in knowledge economies
- Ultimately it's a question of where societies want to invest: in health and equity vs. insurance and prisons

# Sustainable Development

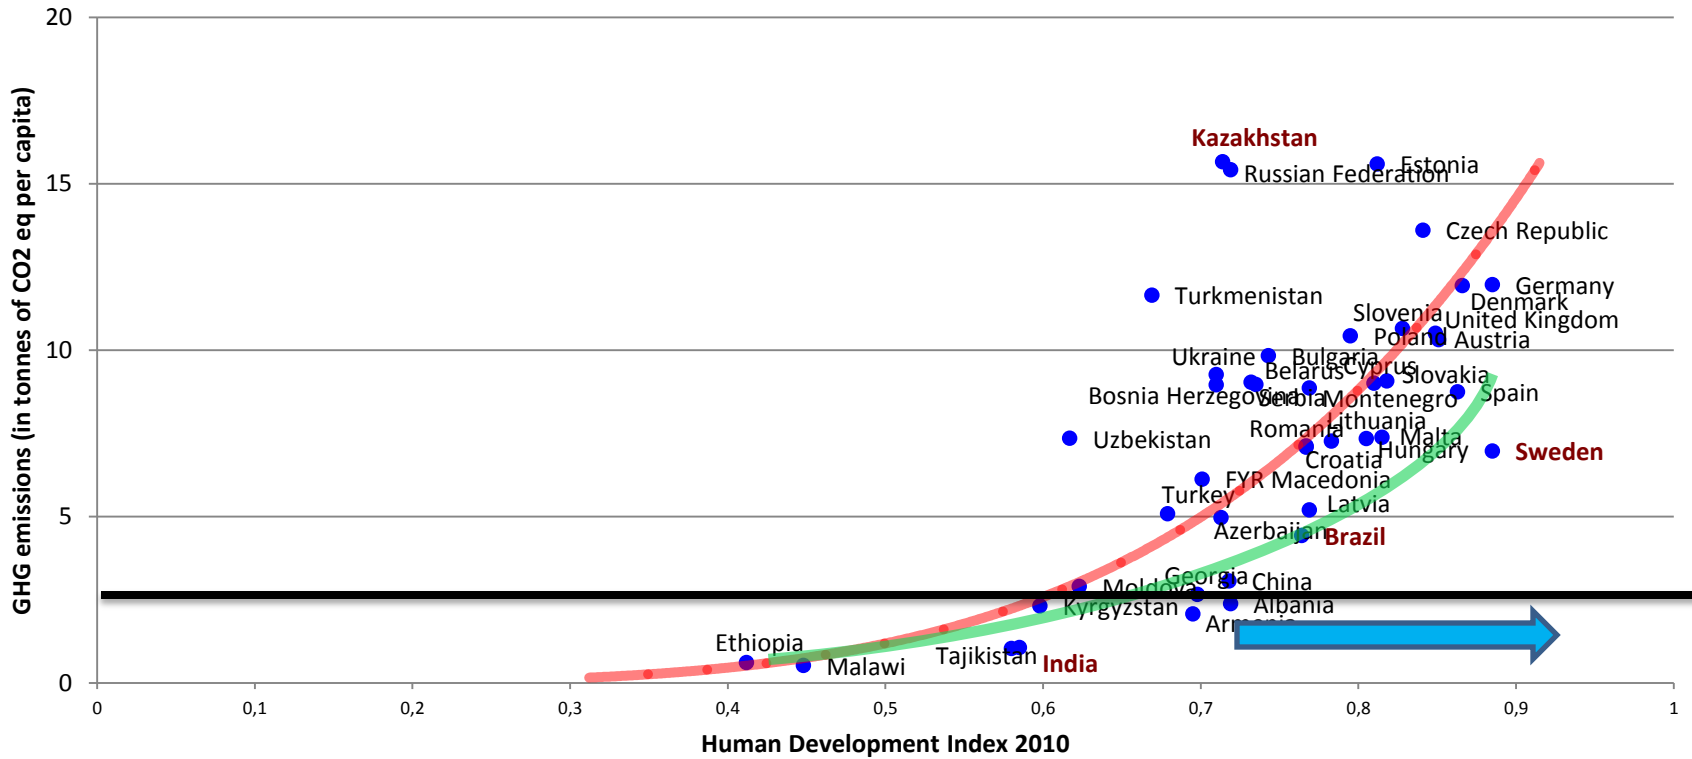

# Fully Sustainable Societies

# Human development without high Co2

# What proposals are on the table at Rio + 20 Summit?

- Sustainable Development Goals
- SG's energy for All campaign

***“The Future We Want”***

# Food for Thought on current Rio proposals

- Sustainable Development goals
- SG's Energy for All campaign
- Social Protection Floor
- Green Economy
- Important that they are universal
- 3 targets: access, renewables and efficiency...first SDG?
- Can this be more than pensions? What about Social business?
- What about people and inequality ?
- Not monetizing nature
